

2017 ECLIP Annual Meeting
April 21-22 2017
Villa Mondragone Congress and Representation Centre

Program

April 21st

08:30 Current status of the ECLIP registry (for ECLIP members only)

Prof. Dr. Martin Wabitsch, University of Ulm, Germany

10:30 Welcome

Prof. Giuseppe Novelli, University of Rome Tor Vergata, Italy

10:45 Diagnose and treatment of unfrequent lipodystrophies: A multi-society practical guidelines

Dr. Rebecca Brown, NIH, Bethesda, USA

11:30 Recent progress in understanding the genetics of FPLD

Dr. David Savage, University of Cambridge, UK

12:00 Coffee break

12:30 Next-generation sequencing (NGS) for genetic diagnosis of lipodystrophy

Dr. Maria Rosaria D'Apice, Policlinico Tor Vergata, Rome, Italy

13:00 Fat excess and fat depletion, apparently opposite conditions with similar features of the immune system

Dr. Margherita Maffei, Centro Obesità-Ospedale Cisanello, Pisa, Italy

13:30 Lunch

14:30 Autoimmune generalized lipodystrophy and type 1 diabetes

Dr. Giovanni Ceccarini, University Hospital of Pisa, Italy

15:00 Altered brown and white adipogenesis in FPLD2

Prof. Giovanna Lattanzi, CNR, Unit of Bologna, Italy

15:30 Coffee break

16:00 Pleiotropic functions of seipin: brain and adipose tissue

Prof. David Araujo-Vilar, University of Santiago de Compostela, Spain

16:30 Anticipation of metabolic complications in LMNA-associated partial lipodystrophy

Dr. Isabelle Jéru, Centre de Recherche Saint-Antoine, Paris, France

17:00 LMNA-associated complex overlapping syndromes

Dr Cristina Guillín-Amarelle, University of Santiago de Compostela, Spain

April 22nd

09:00 Cardiometabolic assessment of lamina A/C mutation carriers according to R482 or non-R482 mutation

Prof. Marie Christine Vantyghem, Centre Hospitalier Universitaire (CHRU) de Lille, France

09:30 Bone mineral density in Familial Partial Lipodystrophy

Dr. Antia Fernández-Pombo, University of Santiago de Compostela, Spain

10:00 Metreleptin treatment in lipodystrophic syndromes : impact on quality of life

Dr. Camille Vatiez, Centre de Recherche Saint-Antoine, Paris, France

10:30 Clinical benefit of the surgical removal of the adipose tissue of the neck in LMNA-associated partial lipodystrophy.

Dr Alessandra Gambineri, S. Orsola-Malpighi Hospital, Bologna, Italy

11:00 Coffee break

11:30 Therapeutic approach to Celia's encephalopathy: a window of hope?

Prof. David Araujo-Vilar, University of Santiago de Compostela, Spain

12:00 Comparison of radioimmunoassay versus ELISA for measurement of endogenous leptin in lipodystrophy

Dr Rebecca Brown, NIH, Bethesda, USA

12:30 The Undiagnosed Diseases Network International

Dr. Domenica Taruscio/Dr. Marco Salvatore, National Centre for Rare Diseases, Istituto Superiore di Sanità, Rome (Italy)

13:00 European network of lipodystrophies help lines

Naca Pérez de Tudela, AELIP, Spain

13:30 The Role and Impact of the Patient Voice; and Updates from the US

Andra Stratton, Lipodystrophy United, New Mexico, US

14:00 Final conclusions

Prof. Giuseppe Novelli, University of Rome Tor Vergata, Italy

Venue:

Villa Mondragone Congress and Representation Centre

University of Rome Tor Vergata

via Frascati, 51, 00040 Monte Porzio Catone (Rome), Italy
