ORGANIZING / SCIENTIFIC COMMITTEE

Prof. Ayşe Kubat Üzüm

Istanbul University Istanbul Faculty of Medicine

Prof. Barış Akıncı

Izmir Biomedicine and Genome Center, Izmir

Prof. Erman Çakal

Ankara Etlik City Hospital, Ankara

Prof. Gökhan Karakölah

Dokuz Eylül University, Izmir

Prof. Ilgın Yıldırım Şimşir

Ege University Faculty of Medicine, Izmir

Prof. Mustafa Şahin

Ankara University Faculty of Medicine, Ankara

Prof. Özgür Demir

Ankara University Faculty of Medicine, Ankara

Prof. Samim Özen

Ege University Faculty of Medicine, Izmir

November 7, 2026, Saturday

08:30 - 08:45	Welcome - İlhan Satman/Özgür Demir
Session 1	
08:45 - 09:15	Three Decades of Learning from Lipodystrophy: Lessons for the Future of Rare Disease Medicine <i>Elif Oral, University of Michigan</i>
09:15 - 09:35	Understanding the Fundamentals of Lipodystrophy: From Molecules to Physiology <i>Justin Rochford, University of Aberdeen</i>
09:35 - 09:55	Generating and Utilising Mouse Models of Rare Metabolic Disease <i>George McIlroy, University of Aberdeen</i>
09:55 - 10:00	Discussion
10:00 - 10:15	Break
Session 2	
10:15 - 10:45	TBD <i>Stephen O'Rahilly, University of Cambridge</i>
10:45 - 11:10	Mechanisms of Adipose Loss with Familial Partial Lipodystrophy Type 2 <i>Ormond MacDougald, University of Michigan</i>
11:10 - 11:15	Discussion
11:15 - 11:30	Break
Session 3	
11:30 - 11:55	Examples of Cellular Modeling of Genetic Forms of Lipodystrophy <i>Corinne Vigouroux, Sorbonne University</i>
11:55 - 12:20	What Drives Our Feeding Behaviour <i>Margherita Maffei, CNR Institute of Clinical Physiology (CNR-IFC)</i>
12:20 - 12:40	Efficacy and Safety of Metreleptin in Various Types of Lipodystrophy: Lessons from Experience in Japan <i>Ken Ebihara, Jichi Medical University</i>
12:40 - 12:45	Discussion
12:45 - 13:30	Lunch
Session 4	
13:30 - 13:55	Cancer as a Major Neglected Outcome of FPLD: Metabolic Consequence or a Direct Genetic Link? <i>Cynthia M. Valerio, Instituto Estadual de Diabetes e Endocrinologia Luiz Capriglione</i>
13:55 - 14:15	X-Linked Hypophosphatemia – The Importance of Multidisciplinary Follow-Up and Comprehensive Treatment from Childhood to Adulthood <i>Marko Stojanovic, University Clinical Centre of Serbia, University of Belgrade</i>
14:15 - 14:40	Lipomatoses <i>Marie-Christine Vantyghem, Lille University Hospital</i>
14:40 - 14:45	Closing
